

Overview of Organic Waste Generation and Recovery in Florida

Karen Moore, Environmental
Administration
December 12, 2018

Florida's Recycling Goals

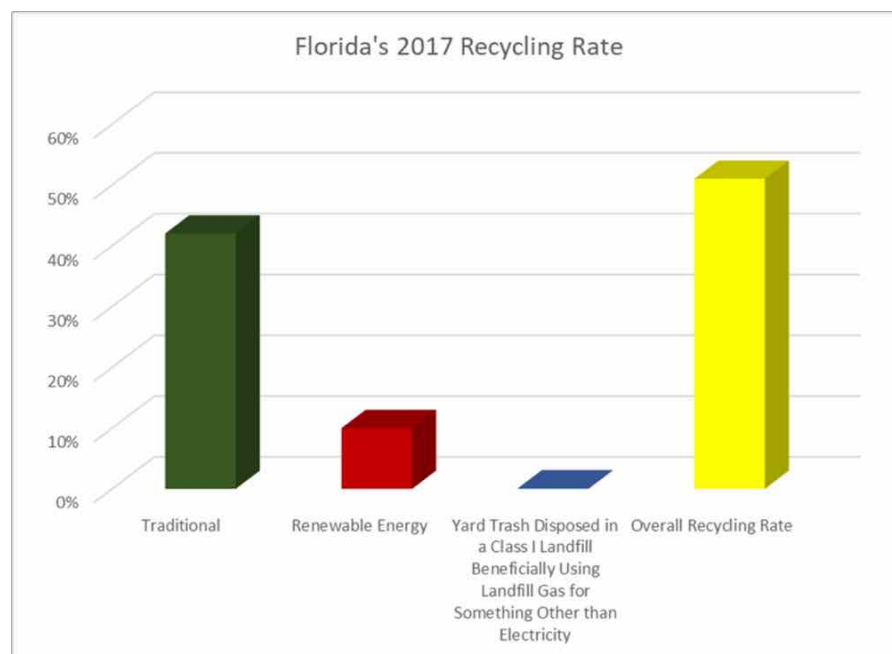

403.706, Florida Statute

- The Legislature set a 75% statewide recycling goal for municipal solid waste by 2020.
- For 2014/2015, the threshold recycling rate was 50%. For 2016/2017 it increased to 60%. For 2018/2019 it is 70%.
- The Legislature also set that same goal for all counties over 100,000 population.
- The Legislature has directed all counties to report their recycling progress to DEP annually.

Progress Towards the Goal

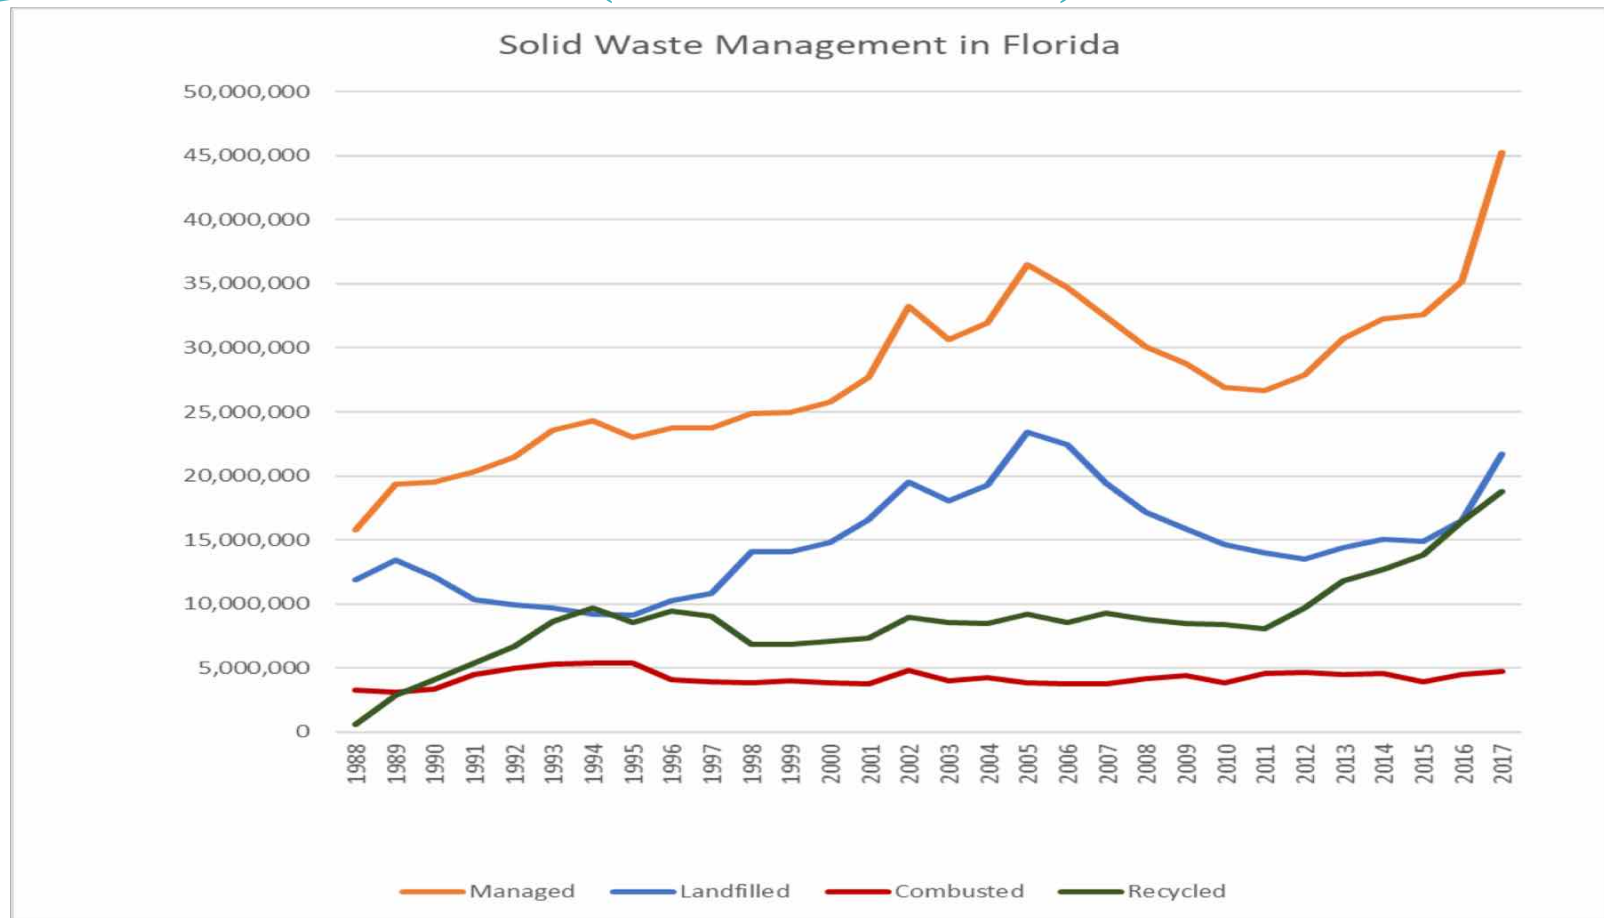

- The statewide overall recycling rate, which includes renewable energy* recycling credits is 52% (2017)
- The statewide traditional recycling rate, which excludes renewable energy recycling credits, decreased from is 42% (2017)

*Electricity produced from MSW or landfill gas

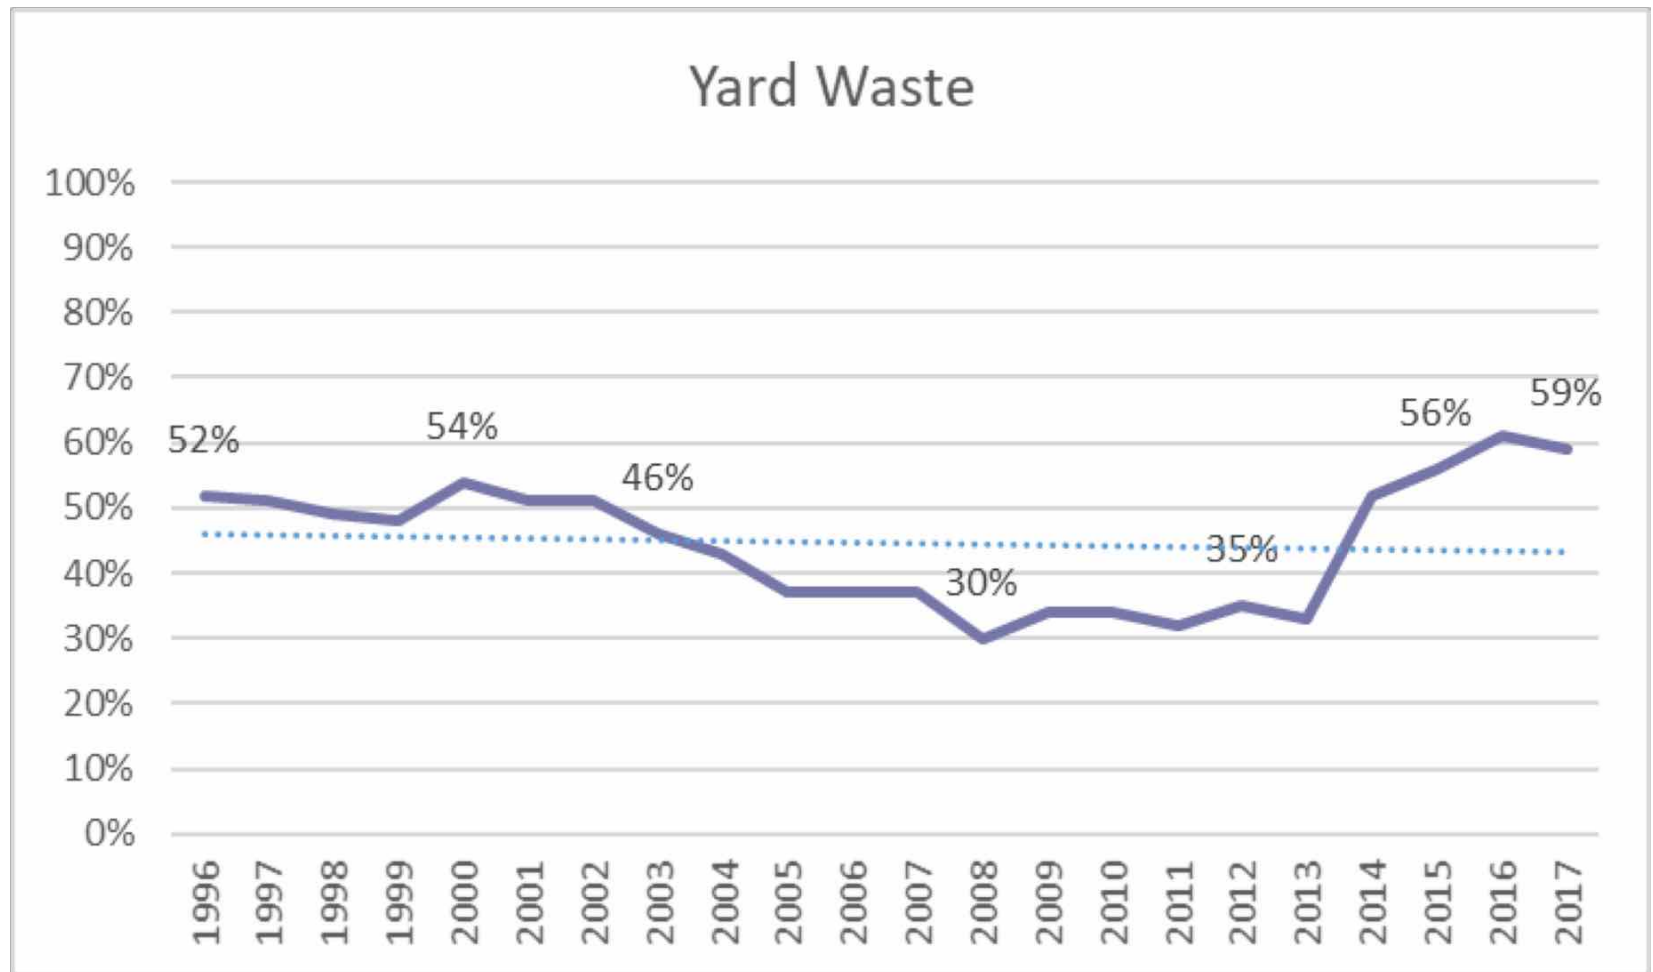

Solid Waste Management in FL (1988-2017)

Yard Waste (1996-2017)

Food Waste (1996-2017)

Reaching the 75%

The 75% goal is a weight based goal, therefore -

- Need heavier materials: push to recycle more C&D and Organics
- Need more volume
- Need additional credits

Organics Recycling Efforts

- Workshops
 - Food Recovery/Diversion Workshop
- State Agency Collaboration
 - FDOT – Compost Usage
 - FDACS- Food Diversion
 - School Food Reduction Guide
 - Share Table
 - DBPR – Inspector Donation Cards
- Source-Separated Organics Processing Facilities (SOPFs)
 - Working with Inspectors
 - BMPs
 - Reviewing Chapter 62-709 (Criteria for Organics Processing and Recycling Facilities)
- FORCE – www.floridaforce.org

What is FORCE?

The mission of FORCE is to provide a framework to promote organics recycling and serve as clearinghouse of information in a statewide effort to streamline compost processing, research, demonstration, marketing, and education information in Florida. FORCE is Florida's organics recycling comprehensive webpage funded by the Florida Department of Environmental Protection (FDEP). The website is managed by Kessler Consulting, Inc.
